of the Lakehurst naval air station.

In his letter objecting to the earlier date for beginning the fatal flight, Commander Lansdowne made no mention of a probable unfavorable weather condition; predicating his recommendation solely on the ground of the limited time for preparations for receiving, refueling and regassing the Shenandoah at Scott Field (III.) and Detroit.

It was developed, however, by Capt. Paul Foley, judge advocate, that the department letter failing to approve the recommendation was written only after it had definite information that the receiving mast at Detroit had been completed and tested. At the time Commander Lansdowne made his recommendation the mast was incomplete. This is the fifth article of a series dealing with the condition today of the air forces of the United States. The

Modification of Volstead Law Predicted

NEWARK (N. J.) Sept. 23.— NEWARK (N. J.) Sept. 23.—Christian W. Feigenspan, president of the Christian Feigenspan, president of the Christian Feigenspan Brewery of Newark, has offered his resignation as president of the United States Brewers' Association because of his opposition to the reported attempt of representatives of the association to reach a compromise with the Antisaloon League on modifications of the Voltague on modifications of the Voltague on modifications of the association trustees in New York tomorrow. Newark brewers said they approved of his stand that the people themselves should determine whether they wanted modification and that it was not a fit subject for compromise.

They also asserted that sentiment is swinging toward a relaxation of restrictions and that modification shortly will be brought about by popular demand without the assistance of the Antisaloon League.

[BT CABLE—EXCLUSIVE DISPATCH]
LONDON, Sept. 23. — Reports
rom the Mosul frontier that the Turks are actively preparing for of Christians from the territory north of the Irak line has aroused a feeling of uneasiness in official circles here. Nothing but quick action on the part of the Council of the League of Nations in appointing a representative to go to the Mosul frontier and report on conditions there will prevent another enforced migration at the

other enforced migration at the point of Turkish bayonets.

It is the British contention that the League should be held responsible for the lives of the Jacobites residing in Turkish territory, as they were placed in jeopardy by the action of the League. Should the Turks begin deportations, Great Britain would be forced to claim release from promises to abide by the decision of the League commission and resume her freedom of action.

Great Britain's position as a mandatory power in Irak depends upon the early settlement of this boundary dispute. British prestige already has been injured by the ability of the Turks to checkmate any definite settlement and as the final decision may be against Great Britain, it is likely she may be called upon to quell an Arab uprising.

Hibbs and Hennessey were indicted on forty-six counts charging larceny by trick and device, otherwise known as "bunko." Mr. Schenck sought to convince Judge Hahn that the asserted offense, if any, was rather obtaining money under false pretenses. Lawyers draw a fine line between the two crimes, and the Appellate Court decisions on many famous bunko artists were paraded before the court. Judge Hahn, who occasionally sits upon the Appellate bench himself, decided the in-

passenger train near Pice Station,
Deputy Sheriffs Patton and Patton reported last night they had
found no clews to identify the supposed hold-up party. There were
footprints and automobile tire
tracks in the vicinity, it was said,
but they might have been made by
someone clee.

The train, No. 4 of the Union
Pacific, was due at Pico Station
shortly after mednight yesterday
morning. While approaching Pico
Station, the engineer of the train
reported, a woman stepped upon
the tracks and flagged the train,
and he brought it to a halt. Instead
of attempting to board, the engineer declared, the woman jumped
back into the bushes, and thinking
her action suspicious, he opened
his throttle and started the train
as quickly as possible.

At Pico Station, the matter was
reported to Special Investigator
McCarthy of the railroad detective
force and he asked the co-operation of the Sheriff's office.

Glendale Phone Users Ask New Rates Hearing

Residents of Glendale yesterday asked the State Railroad Commission for another hearing in the matter of their telephone rates.

In a formal petition they re-quested the commission to order the Pacific Telephone and Telegraph Company to extend the telephone boundaries to conform with the city limits, particularly in rethe city limits, particularly in regard to the boundaries between Glendale and Burbank and Glendale and Montrose.

At the present time the rate basis on phone service varies within the limits of the city of Glendale, it was said.

October 16, next, has been set as a date for a preliminary hearing in Glendale before Examiner Scatterwhite.

Cntirely New Body

Of the millions in profit made, re-made and being made in Southern California real estate, no small part is included under the head of "Business Property."

Today, as in the past, much of these profits arises from timely tips published exclusively in the real estate columns of The Los Angeles Times.

Shrewd buyers know that when a piece of property is advertised in The Times, that fact in itself is evidence of good value. People with real estate to sell do not keep still about their good offerings and tell the world about their poor ones. They select for representation in The Times their choicest parcels, knowing these will be in competition with hundreds of others, and will be scrutinized by virtually all the real estate investors in Southern California.

(BY A P. NIGHT WIRE)

OAKLAND, Sept. 23.—Secretary of State Frank C. Jordan today denied any connection with the Gollett Oil Syndicate or acquaintance with any of its principals in the trial here today of a group of these principals on the charge of conspiracy to commit grand larceny in connection with the stock-selling campaigns of their organization.

Jordan, as a witness for the prosecution, testified that a telegram purported to have been sent by him to James Gough, one of the syndicate promoters, stating that Edward L. Doheny, oil magnate, was interested in the concern, was evidently a forgery. Gough, who is under a prison sentence for his part in the supposed conspiracy, was brought in for Jordan to identify. The State official said that he had never seen him before and had no acquaintance with him of any sort.

Envoys of Utah, Colorado and Wyoming in Favor of Compromise on Water

SACRAMENTO, Sept. 23.—Rep-sentatives of Utah, Colorado and Wyoming, who are in California to discuss the Colorado River problem, today called on Gov. Richard-son and expressed themselves in favor of a compromise of the river problem that will be fair to all problem that will be fair to all States concerned. Following the conference, which was brief, the delegates left for Los Angeles and the Imperial Valley.

The delegates are S. O. Hopkins, Water Commissioner of Wyoming; Commissioner D. E. Carpenter of Colorado. William R. Wallace and George M. Bacon of Utah.

Gov. Richardson made the following statement relative to the meeting:

"The delegates from Wyoming, Colorado and Utah were here to discuss unofficially the Colorado River problems, I suggested that they meet the California legislative delegation and officials of Los Angeles and Imperial Valley. I hope that good may result from their visit and I am extending my co-operation. California is deeply interested in the conservation and sontrol of the waters of this great siver."

Sixty Depositions in Fight on Wood Campaign Fund

nator Declares Procter Assured Him of Money

Colonel Fights Admission of Load of Testimony

CHICAGO, Sept. 23.—The first of sixty depositions made by prom-ment politicians and business men, was reached today in the trial of Col. William Cooper Procter's suit Col. William Ceoper Procter's suit to recover from Col. A. A. Sprague, one half of a note for \$100,000. The note represented a small part of the great amount loaned by Col. Procter in furtherance of Maj. Gen. Leonard Wood's campaign for the Republican Presidential nomination in 1920.

Defense attorneys said that \$1,700,000 was spent in the Wood campaign, some contributed by wealthy eastern friends of Gen. Wood. Notes signed by Col. Procter raised a large part of this sum, defense counsel asserting that Col. Proctor accounted for \$700,000 raised on his own notes, one of

defense counsel asserting that Col. Proctor accounted for \$700,000 raised on his own notes, one of which, with Col. Sprague's name on the back forms the basis for this. Once when Col. Sprague remonstrated with Col. Procter for lavish expenditure, defense counsel asserted Col. Procter replied "it is none of your business how a certain \$500,000 was spent."

Entering the depositions was opposed strenuously by Col. Procter's counsel and the first one was begun with a warning from Federal Judge Slick of South Bend. Ind., that his ruling would be developed by the information in the document. At adjournment he instructed the attorneys for the two colonels to try to get together on a stipulation as to just what portions of the great bundle of papers should be read into the record.

BRANCH LINE SOUGHT BY WESTERN PACIFIC

ROAD ASKS PERMISSION TO BUILD SAN JOAQUIN VALLEY SPUR

(BY A P. MIGHT WIRE)
WASHINGTON, Sept. 23.—The
Western Pacific Railroad asked
permission from the Interstate
Commerce Commission today to
construct twelve miles of new railroad in the San Joaquin Valley of
California. The line will extend
from Villinger Siding to the unnamed point in the valley.

strocktron. Sept. 23.—That the Western Pacific Railroad Company seeks to extend its tracks to Lodi and the country cast of there was confirmed today by the Stockton Record through communication with Charles L. Elsey, vice-president of the Western Pacific, as his San Francisco offices. The combany plans to run its branch from Villinger Siding, which is just south of Brack station on the Western Pacific main line, to Lodi and beyond, for a total distance of twelve miles.

This move, according to Elsey. offsets the competition through the absorption by the Southern Pacific of the traction company electric line which now operates between Stockton and Lodi and has served the Western Pacific up to this time. The Southern Pacific has an application before the Interstate Commerce Commission asking permission to acquire the traction properties.

ODD FELLOWS GRANT SMALL LODGES RIGHTS

PERMISSION TO RECEIVE GIFTS FOR CHARFTY EXTENDED AT CONVENTION

[BY A. P. NIGHT WIRE] PORTLAND (Or.) Sept. 22.— The Sovereign Grand Lodge of the Independent Order of Odd Fellows,

Independent Order of Odd Fellows, in convention here today, voted to permit grand lodges to give sub-ordinate lodges permission to hold entertainments or to receive gifts for the uses of charities and other worthy causes outside the work of the order. Heretofore, the lodges have been unable to contribute to funds being collected in communities for charitable purposes.

A resolution was adopted requiring all grand lodges and grand encampments to submit their constitutions and organic laws to the Sovereign Grand Lodge in order that uniform constitutions may be drawn.

drawn.
This afternoon delegates to the Sovereign Grand Lodge and thousands of visiting Odd Fellows and Rebekahs took part in a parade.
In the competitive drill of the Patriarchs Militant teams the Scannick ratriarchs mintant teams the sig-ramento Canton was the only en-trant in the ckontest for cantons, having twenty-four chevallers and three officers in line. Prizes in this event were \$1000, first; \$500, sec-ond, and \$300, third.

GUARD AGAINST CHOLERA VICTORIA (B. C.) Sept. 23.—
Immigration officials here set themselves on guard today against cholera from Japan. They were informed that Japan has thirty-four cases of this disease. Nobody can embark in Yokohams for Canada without a medical examination.

War Launched Against Agitators as Result **Public Demand**

[ST CABLE AND ASSOCIATED PRESS] LONDON, Sept. 23.—The persis ent outcry of the section of the press and the public for stringent measures against Communists and other Red propagandists and agitators who assertedly long have een stirring up unrest among

British workers and trying to sow a mutinous spirit in the army and navy, seems to have induced the government to take steps in the direction demanded.

It is reported that a general round-up of offenders will take place in a few days. It is said the government already has decided to deport about fifty foreign Reds.

The police in large provincial cities have been called upon to cooperate with Scotland Yard men.

The assembly of the troops for maneuvers is declared to have been seized upon by propagandists as a favorable occasion for spreading subversive documents. The Sketch says wagons laden with seditious circulars and pamphiets left London yesterday for the maneuver area. They are being shadowed by detectives with orders promptly to arrest the distributors. If foreigners they will be deported.

The Daily Mall says many detectives have been enlisted as soldiers to watch the Reds, and that a special department has been established at military headquariers at Aldershot to deal with the entire problem of propaganda among troops.

Parley on Pact May be Called in Italian Town

PARIS, Sept. 23.—It is under-tood that the Allied and German ministers' security conference will be held at Locarno on Lake Majeur in Italy beginning October 5. next. The German government has next. The German government has as yet sent no reply of a formal nature to the French note dispatched to Berlin recently from Geneva but there have been diplomatic conversations as a result of which it is said the place and time have been set.

In the view of the scores of journalists who will surely cover the meeting the selection of the place is interesting, to say the least. There are extremely limited telegraphic facilities and no wireless available. There probably will be considerable soramble on the part available. There probably will be considerable soramble on the part of the correspondents trying to satisfy their editors. Locarne boasts two hotels and it is probable they will be taken ever by diplomats. Naturally the choice for the conference of the Italian town has been influenced by a desire to have Mussolini participate in the negotiations.

the rate of about ten a minute. The
next day a police patrol pulled
up in front of Howard's home and
he wondered why anybody should

Proposals to ald them by selling the automobile are always rejected by the "tourists" reports of Little Rock agencies show. Out of a large number of "stranded tourists" who have applied for aid here not one would consider parting with the automobile. Tickets to their homes or to the stated destination are also not desired.

"Most of the "fiver tourists' that apply for aid are frauda and we do not propose to give them money or gasoline so as to pass them onto some other city," says C. H. Wickard of the Little Rock Social Service Exchange.

Fresh fruits were seventh in line with 2.8 per cent of the total, and of the \$402,641 invested in developing a greater consumer demand for fresh fruits and vegetables, 74.3 per cent represented the advertising done by one concern, the California Fruit Growers' Exchange, 20.7 per cent by the Florida Citrus Exchange, and 5 per cent by all other fruits combined.

Watch Your Blood Pressure!

How I Stopped High Blood Pressure In the Nick of Time, Arrested Hardening of the Arteries and Avoided Bright's Disease, Without Drugs.

-By DUDLEY MATTHEWS

Of all things in the world that meant less than nothing to me, High Blood Pressure meant the least. I had scarcely even heard of it, and although I was forty-five years old and had until recently been feeling as fit as a school kid, I had always taken it for granted that this thing called High Blood Pressure was a disease of very old people.

treatment at once, and before my two months were up my blood pressure was back to normal and I was once more a well man—much to the surprise of my doctor. So if you have any of the symptoms of High Blood Pressure, WATCH OUT! Send for the booklet "Health" (it is free for the asking) and find out what Agmel can do for you. heart, I went to the doctor and he told me my blood pressure was sixty points too high. I could not understand how a man who had lived as sensibly as I had could be so afflicted.

At first I was inclined to laugh it off, but he soon convinced me that it was no laughing matter. "Why, man alive," said he, "don't you realize that High Blood Pressure is nature's warning which tells you that Hardening of the Arteries, Apoplexy and even Bright's Disease are just around the corner? You have got to take a two months' vacation, live on a strict diet, and rest. Then come back months' vacation, ave on a series diet, and rest. Then come back and see me."

I gasped. But I took his advice, and it was while I was loafing at a little country hotel that I accidentally ran upon a booklet called "Health." That certainly opened my eyes both to the dangers of my condition and to the value of a natural raw food product called Agmel for combatting High Blood Pressure and all diseases of the kidneys and digestive system.

Prices Incline Lower in Clash of Opinions on Market

(EXCLUSIVE DESPATCH) L. 1936, by New York Evening Post.) NEW YORK, Sept. 23 .-- Co. flicting forces were again at play in securities today, the results being a decidedly mixed trend. Here and there points of strength were un-covered, but in the main the drift was toward alightly lower levels. Motor stocks acted well for a time. Studebaker. Hupp and Paige-Detroit being the features, but the first named fell back on profit taking after setting a new top for the year. Several of the recently favored industrials were freely offered at concessions.

Money Market Easier A drop in the call loan rate from the renewal figure of 5 per cent to 4½ per cent, improved sentiment to some extent and probably checked selling pressure, but real-ising sales went ahead in several parts of the list.

Debt Settlement An early settlement of the French war debt problem would prove a favorable market factor in the opinion of several bankers, who look for increased foreign business as soon as the uncertainty of the negotiations about to be opened has been removed.

Cotton Prices Break

The cotton trade was caught by a surprise again today in the fortnightly estimate of the Department of Agriculture. Whereas a crop of only about 13,500,000 bales had been looked for in preliminary figures, the government's estimate put the crop only 65,000 bales short of the 14,000,000 level. Naturally, the market was flooded with orders by those who had paper profits and by sellers who anticipated a decline. The result was a break of from \$5.50 to \$7.50 a bale in the local market, and a collapse of \$9 a bale in New Orleans. Later covering by shorts effected a rally. Cotton Prices Break

Chrysler Sales Sales of Chrysler cars are exceeding production, according to J. E. Fields, vice-president, who sailed on the Mauretania. Mr. Fields pointed out that foreign business was running far ahead of last year; figures. last year's figures.

The reports were indefinite and not altogether convincing, but were credited in some circles, because it is known that

BOND QUOTATIONS

NEW YORK, Sept. 23.—Bond trading turned duit today under the restrictive influence of high time monsy rates. Despite larger supplies of call money, attracted to the market by the high levels which recently prevailed, accommodations for periods of four to six months were not so readily available and loans for this length of time were marked up from 4 1-2 to 4 2-4 per cent.

The flood of new offerings which appeared early in the week appeared to have satisfied the present investment demand and little

One cause of much misery in this world is the failure to go through with unpleasant tasks. In a business way, these tasks relate mostly to mistakes. misunderstandings and disputes between seller and buyer and between employer and employee.

The tendency is to leave these matters unsettled. But they do not heal themselves. The poisonous roots spread, and the outcome is a customer lost, an expensive lawsuit, an employee without a job, or an employer minus a valuable

The National City Bank of Cleveland, Trustee

Warrants

Each \$1,000 bond is to be accompanied by a separate Stock Option Warrant entitling the holder thereof to subscribe to three shares of Class "B" Capital Stock, without par value, at \$50 per share up to March 1, 1926; thereafter at \$75 up to September 1, 1926; and thereafter at \$100 per share up to March 1, 1927. Similar warrants covering proportionate rights will accompany bonds of denomination less than \$1,000.

Mr. C. W. Sears, President, summarises from his letter as follows:

HISTORY: Laritan Fuel Company was incorporated under the Laws of Delaware for the purpose of transporting natural gas for distribution for industrial and commercial purposes. It is not the intention to enter the domestic field. The operation.

EARNINGS: The Company's carnings are running for beyond first expectations. Based on current and future earnings from contracts held by the distributing companies, the Company's Gross Sales should approximate \$1,013,000; after allowing for the cost of gas, operating expenses, taxes, etc., there should be a Net Income of \$556,000 available for interest requirements of \$140,000, equivalent to nearly four times such requirements. Officials of the Company estimate that in the near future Net Income should exceed \$860,000 or more than six times interest requirements.

SECURITY; A closed first mortgage on the 130 miles of pipe line system and all other property, equipment and appurtenances now owned or hereafter acquired.

SINKING FUND: There is provision for a Sinking Fund of three cents per thousand cubic feet of gas, payable monthly, based on gas transported through the pipe line system, sold and paid for during the preceding month, with a minimum payment of \$25,000 monthly, or \$300,000 annually, commencing September 1, 1925.

MANAGEMENT: The Company will be under the direct management of Mr. C. W. Sears, President and General Manager, who has had wide experience in the operation and management of gas companies. For some years Mr. Sears was Assistant General Manager of the East Ohio Gas Company, Cleveland, Ohio, having been previously associated with some of the most successful gas companies operating in Ohlahoma, Kansas, Texas and California.

SUPERVISION: Property is under supervision of the Hope Engineering and Supply Co., engineers in natural gas.

GAS SUPPLY: Long term contracts have been made with the Western States Land & Development Company, the Carter Oil Company, the Gypsy Oil Company, Harris & Haun and others in Grant and Kay Counties, Ohlahoma. It has been estimated by competent engineers that the gas available greatly exceeds the maximum needs of the Company for a period for beyond the maturity of this issue.

CAPITALIZATION (Upon completion of financing)

Of which 6,000 shares are reserved for subscription by holders of Stock Option Warrants. Class "B" stock is entitled to all the privilege of Class "A" stock except voting rights.

All legal masters in connection with the issuance of these bonds and stock option warrants will be passed upon for the Bankers by Messrs. Cadwalader, Wickersham & Taft, New York, and for the Company by Cornelius D. Scully, Esq., Pittsburgh, Pa.

We offer these bonds for delivery if, when and as issued and accepted by us, subject to approval of legal proceedings by counsel.

Chief Exception Course of Other Groups Not Clearly Defined

NEW YORK, Sept. 23.—The stock market today was shot through with confused cross-currents as speculative operations for the rise and the decline were con-ducted with varying degree of suc-cess. Consistent strength was shown by the railroad shares, but other groups were subject to the conflicting whims of tradera, fail-ing to follow a clearly defined trend.

Purchase of a \$14,000 rock crusher for work at the Harbor was voted yesterday by the Board of Harbor Commissioners at its weekly meeting. The crusher will be used in converting the stones and gravel which formerly had been dumped into the ocean, into ballast for railroad beds and similar projects at the port.

As only the larger stones are used in bulkheading work at the harbor, the smaller rocks heretofore have been dumped into the ocean. Through the use of the crusher, this will be utilized here after.

aspiraciones de-mejoramiento de los hombres.—

La participación de la colectividad en el gobierno debe estar organizada de manera que exprese el sentir real de sus-necesidades e ideales, por una representación de sus verdaderos—intereses. La participación de agrupaciones y otras entidades—más reales que los simples individuos aislados, hará si que la sociedad sienta gobernarse a si misma, y cada clase, buscando su—propio mejoramiento, realizará la felicidad de todo un país.

As translated, the production creads as follows:

Government in its constant development goes on, leaving behind all errors or defects for vhose correction it struggles. Bút new errors appear and become of greater importance, and a new effort must be made to blot them out. The ideal world would have such a government as would change subtly according to the changes in social aproblems; it would have such a perfect adjustment and be organized in such a manner that each individual would live and act his part in co-operation in the working out dividual would live and act his part in co-operation in the working out of life's problems.

in co-operation in the working out of life's problems.

The present government is not an end in itself. It exists for collective functions and only in that manner has it power over individuals. The Governor or President is not freed from the law as herestofore, in accordance with the old maxim, "Principe solutus lege est." All governing authorities must now be inspired for thegreater realization of the happiness of all men. Justice must be required not only from the citizens, but also from the directing body; if it damages unjustly the individual, it must be condemned and must make reparation.

COMPARED TO MAGNA CARTA
Into the regime of the supremander of royal power came the requirement that it be limited, conditioned and subjected in a pact agreed upon with the subjects. In the Magna Carta the King has power to command only so far as the rights of the nobles are not concerned; it reveals also the spirit of guaranty, in the phrase of the Aragonian courts. Certain conditions were piaced upon the King.

A reception in honor of Perry W. Weidner, Grand Generalissimo, the time since, working largely as a free lance. He has contributed to all the New York newspapers, and many of the leading magazines and periodicals devoted to motion pictures. At this time he is a member of the rights of the nobles are not concerned; it reveals also the spirit of guaranty, in the phrase of the Aragonian courts. Certain conditions were piaced upon the King. Weidner will be given by artists from Hollywood. Refreshments will be served after the program. Commander J. Ira Moyse invites all knights to bring their ladies. deal in an explanation of constitutional government as its principles are exemplined in the present Mexican government.

"The principal aim in the formulation of our governmental principles has been to achieve such flexibility as will meet changing conditions and at the same time guarantee the liberty of the individual," he said.

He called special attention to the diligence with which it has been sought to incorporate in the Maxican constitution provisions for the adequate protection of society, without violation of individual rights. He also stressed the care that has been used to insure justice for all and to prevent tendencies toward class legislation.

RE: COLUMBUS

Columbus sailed over the ocean,
And circled the world half around
With a wholly erroneous notion
As to whither his vessel was bound;
The Indies, he thought, lay before him,
And joy was ablaze in his breast— As his staunch little caravel bore him Toward the magic and mystical west

Had he known that he never was fated To gather a cargo of gold, That beyond him no regions awaited With tressure and jewels untold, Although he was brave and stout-hearted And valiant and doughty and game It's likely he wouldn't have started The journey that brought him his fame.

But visions of cities, surrounded With walls built of jasper and jade, Of marvelous creatures that bounded
Through many a spice-scented gladeWere his as he lay on his pillow Till the pilot awoke him at dawn, And, therefore, he battled the billow And sailed—as we're told—on and on.

This shows us, dear reader, we'd better Take up any possible bet, Though sometimes the hustling go-getter Doesn't know what he's going to get.

No Star Speed Limit

No Star Speed Limit
LONG BEACH, Sept. 21.—[To
the Editor of The Times:] Reading
article, "Earth Hits Terrific Pace,"
printed in today's issue of The
Times, I would inquire if the figures given of Mother Earth's speed
are not a trifle "out." At 12½
miles per second (some astronomers say only eleven) I make it
that she travels 45,000 miles per
bour, rather than 750. It would
seem that an apology is due the
old lady.

Speeds of Stars"?

According to authorities, most of the stars (all suns) travel at an average speed of seventeen miles per second. But the speed of one or two so-called "runaway" stars makes even seventeen miles per second look rather slow. If my memory serves me rightly, Groom-bridge's runaway covers 375 miles per second and in due time is bound to pass entirely from our visible universe. Such a speed, one astronomer has calculated, could not be controlled by the combined attraction of all the known stars, and its originating force cannot be imagined.

DOWNEY, Sept. 19.—[To the Editor of The Times:] When the American cruiser Concord paid a visit to Yamatave, the principal seaport of Madagascar, the townspeople and the French were greatly impressed with the exemplary behavior of her crew, who conducted themselves as decorously as though everything of an alcoholic nature, from rum to champagne, was not theirs for the asking. I do not know which astonished the French most, that 300 sailors from a bone-dry ship could spend several days in one of the wettest towns on earth without a single case of intoxication or that the sailors could stroll about under a sun deadly as a rifle bullet without a single case of sun stroke.

LOS ANGELES, Sept. 18.—[To the Editor of The Times:] Often lately I've seen it stated in The Times that women with bobbed hair are refused admission to St. Peter's. Rome. Unless bare-headed they are admitted, whether "bobbed" or not. Nuns are usually "bobbed," for that matter.

CREDIT

"Your credit's good for anything," our leading merchant said it; "we want all men to dance and sing and so we're giving credit. Just blow yourself by day and night, though empty be your pocket; buy anything that is in sight and on the slate we'll chalk it." It is a noble thing to feel your standoff has no limit; that you may buy with fiery zeal and none will try to trim it. A large pipe organ then I bought, its tones were grand and thrilling, and when I left the store I thought I'd surely made a killing. But as I paced the village street to gain my humble shanty I felt a coolness in my feet—how face the coolness in my feet—how face the wife and auntie? "If there's a thing we do not need." they cried in doleful chorus, "it is that instrument—indeed, the thing will only bore us. Now every week for four teen years you'll have to make a newment, and who will buy our bore us. Now every week for fourteen years 'you'll have to make a
payment, and who will buy our
kickless beers, our remedies and
raiment?" Next day, when to my
work I went, remorse within me
stronger, the boss exclaimed, "OhMr. Gent, we'll need you here ao
longer." My eyes with scalding
tears were dim as I went forth disgusted; I fell down stairs and
broke a limb, which surgeons then
adjusted. Misfortunes came, one
after one, woe was a chroule dweller: and every week there came a
dun from that blamed organ seller.
Just now I'm having better luck, I
work for Johnnie Morgan, and every week I take a buck to pay on
that pipe organ. Fill never buy a
thing again, though merchants
plead and banter, unless I have the
iron men to pay for it instanter.

Wire W sends in her fayortte romedy for warts. It is muriate of anamonia crystals. A large lump of this can be purchased at any drug store. A small pleos is carried in the pocket and two to four times a day is moistened with water and rubbed over the wart with a slight pressure. New warts may disappear soon, but old ones may take several weeks.

I told you when I wrote on warts appearently caused by some infectious material, because it is what we call auto-inoculable—one wart will cause another, Warts are very common in childhood for this reason.

Farnum Enjoys Return to Stage

"It's great to be back on the age after ten years in pictures." That's the opinion of Franklyn Farnum, who plays the part of

Farnum, who plays the part of an Irish police captain in "Little Neille Keily," the Cohan play now at the Playhouse.

"I've been doing only motion-picture work for the last decade, and I wondered how it would be to get back before an audience again and really talk—not just act," he added. "And it's fine—especially when audiences are as appreciative as they have been of 'Little Neille Keily."

Before he went 'into pictures, Mr. Farnum was a leading man in such musical comedies as "The Dollar Princess," "Madame Sherry," "The Candy Shop" and "The Only Girl."

"I have played a lot of parts in my time on stage and screen, but this is the first time I ever was a policeman," he said. "And I almost feel as though I had some authority."

The breeziness and humor that Mr. Farnum has shown on the screen as a leading man in western pictures he has brought to this part in "Little Neille Keily." After much argument, Producer Louis O. Macloon persuaded him to come back to the stage and help make the Los Angeles showing of the Cohan comedy a success.

Foreman and Clark, on this page, propose an idea to clothing wearers which may astonish and offend the clothing industry. But we mean it . . . every word of it. We feel that this season, more than ever, clothing buyers are entitled to the inner facts . . . the hidden points . . . of clothing construction and quality. So here and now we make this suggestion:

Go to any clothing store and ask to have the lining cut loose from any suit or overcoat, regardless of price. It won't hurt the garment. Don't take

that for an answer. It means loosening a few stitches that can be restored by a tailor in a few minutes. Then get a mental snapshot of the construction underneath! Note it carefully—ask questions about it. Then come to Foreman and Clark and let us do the same thing. Let us actually cut

away the lining to reveal our famous front.

We have said that Foreman maintenance construction is as fine, in of inner materials and tailoring, as a ment, at any price, in the clothedustry! We say it again! Find the for yourself! Bring any impartial tailor or expert clothing man we
